He always should act openly and impartially. He should love the city so well that he always will defy her false friends and her open enemies."

SHIBE PARK, Philadelphia, Sept. 1.—"Jack Barry walked." Both Red Sox and Athletics players were so overcome with the magnitude of the gift presented to the former Athletics' shortstop, that for the moment the ball game was forgotten and Weldon Wyckoff in orthodox Maxin style issued a free pass. In behalf of the fans of Philadelphia admirers of Barry, Louis Hunt, Councilman, presented him with a magnificent chest of silver, valued at \$50. This probably is the costliest gift ever made to a ball player in this city.

The fans were delighted to see Staff McNichol back at his old place on first. McNichol returned to the city this morning from his home in Gloucester, Mass. As to the ball game, Wyckoff and Foster, the opposing pitchers, appeared in the early innings to be in the best of form, although the Athletics' star had difficulty in locating the plate in the first three innings of play. Rube Oldring was the only hitter who succeeded in registering a single.

FIRST INNING. Hooper walked. Janovik was hit by a pitched ball. Speaker hit into a double.

Ambassador Bernstorff Formally Notifies Secretary Lansing Berlin Accedes to Every Demand of United States Authorities.

Every Principle Contended for by American Government in Lusitania and Other Notes Granted—Complete Triumph for Washington Diplomacy—Freedom of Seas Assured to Neutral Merchantmen

WASHINGTON, Sept. 1.—"Liners will not be sunk by our submarines without warning and without safety of the lives of noncombatants, provided that the liners do not try to escape or offer resistance" was the written statement of Ambassador Bernstorff, conveying his official instructions to the Secretary of State today on the German answer to the latest Lusitania note.

The full text of the Ambassador's note to the Secretary of State was as follows:

My dear Secretary: With reference to our conversation this morning, I beg to inform you that my instructions concerning our answer to your last Lusitania note contains the following passage: "Liners will not be sunk by our submarines without warning and without safety of the lives of noncombatants, provided that the liners do not try to escape or offer resistance." Although I know you do not wish to discuss the Lusitania question till the Arabic incident has been definitely and satisfactorily settled, I desire to inform you of the above because this policy of my Government was decided on before the Arabic incident occurred. I have no objections to your making any use you may please of the above information. I remain, my dear Mr. Lansing, Very sincerely yours, J. BERNSTORFF.

Commenting on the foregoing statement, Secretary of State Lansing would only say "that in view of its clearness it seemed needless to make any comment in regard to it" other than to say that it appeared to be "a recognition of the fundamental principles for which we have contended."

Germany has fully accepted America's interpretation of the rules under which her submarines may operate. Lansing made the following statement immediately after Count von Bernstorff left: "Ambassador von Bernstorff said that his Government accepted our position in principle."

On leaving the State Department Count von Bernstorff stated that he considered the submarine issue, as raised in the cases of the Gulfight, Lusitania and Arabic, a closed incident. He said that he had not taken up details at this time. The question of payment for the Lusitania and Arabic victims and of formal disavowal would be discussed by him later with Secretary Lansing.

Count von Bernstorff said he had not received any further details about the Arabic, but that he had been chiefly concerned in clearing up the great issues that have caused the strained relations between the United States and Germany.

It was learned that Count von Bernstorff has been urging his Government to accept the viewpoint of the United States ever since he had his conference with President Wilson shortly after the Lusitania was sunk. He has been supported in his efforts by the liberal elements in Germany, but it was not until within a very brief period that the military and naval powers were won over to his way of thinking.
